

Careful pregnant

Response:

Airway:

Breathing?

Pulse:

Pain Score:

Scenario Overview:

While at a crowded area a lady goes into labour, the first aiders must be able to help care for the woman to help her feel more comfortable and help find a clean place and other clean things for the baby, assuming the ambulance is more than 11 minutes away the first aiders had to deliver the baby

Difficulty:

First Aider Moderate

How the scenario should progress:

If the first aiders are unable to make the patient feel comfortable and cared for her condition should change, if they can't keep the crowd away the patient will keep feeling uncomfortable and uncared for

Actor Tips:

Patient 1:

Name: **Age:** 26 **Sex:** Female
